

Power Supply Unit - 230VAC /24VDC, 9A Optimised for CEL Aircraft Warning lights

CEL-PS-230-24-09

Key features

- Extremely reliable - long lifetime
- Optimised for CEL LED-obstacle lights
- Degree of protection IP67
- Die cast aluminium enclosure
- Easy to install
- No RF-radiations
- 5 year warranty

Electrical characteristics

- Input voltage 230VAC
- Power consumption max 220VA
- Output voltage 24VDC
- Maximum output current 9A

Mechanical characteristics

- Yellow powder painted die cast aluminium body
- Degree of protection to IP67
- Operating temperature range -55°C to +55°C
- Height 348mm, width 205mm, depth 115mm
- Weight 4kg

Order Codes:

CEL-PS-230-24-09 for 230 Vac system
CEL-PS-115-24-09 for 115 Vac system

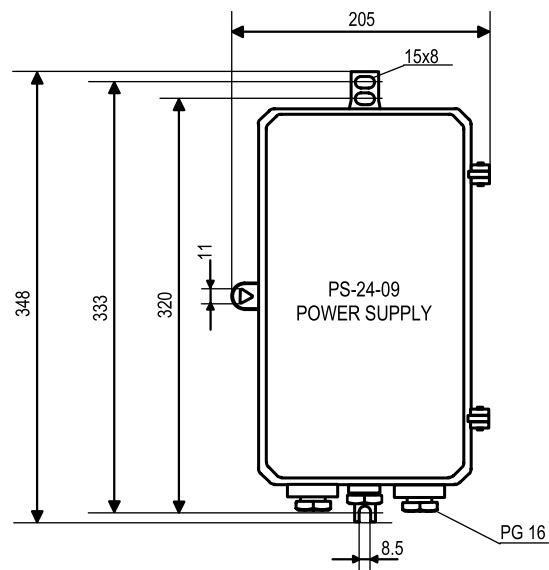

Made in EU
