### LED DIGITAL CLOCKS

DATEX is an elegant digital clock for indoor use designed to fit the sophisticated environments of today's Business society. The black case provides an elegant impression.

The digits and characters, formed of LED's in red (standard) or green (optional) have a height of 60 mm giving a viewing distance of up to 25 metres.

Diodes of 300 mcd intensity.

The light intensity of the digits is adjustable by a dimmer control.

Easy to use – via three buttons.

24 Hours running reserve. After a mains failure correct time is automatically displayed.

DATEX can be operated as stand-alone unit (accuracy 0.1 sec/24 h), via radio signal (option) or impulse from Master clock. All operation methods also require connection to mains supply 230 VAC.

The construction meets the regulations according to EN50081 and EN50082.

#### Options:

- Bracket for double sided wall or ceiling mounting.
- Receiver for DCF, RDS, MSF, GPS

#### Options (factory installed):

- Green LED's (300 mcd)
