

## Contarnex Europe Limited

### Digital Clock

**AUREA<sup>II</sup>** is an elegant digital clock for indoor use designed to fit the sophisticated environments of today's business society. The dark coloured and slightly curved front provides an elegant impression. The execution gives very good legibility even from tight angles.

The digits, formed of LED segments, are available in green or red and have a height of 58 (hours/minutes) and 45 mm (seconds).

The light intensity of the digits are automatically controlled via photo diode.

Easy to use – three buttons on one of the short end sides.

Thousand hours memory capacity at power failure.

**AUREA<sup>II</sup>** can be operated as stand-alone unit, via radio signal (option) or impulse from master clock. All operation methods require also connection to mains supply 230V AC.

The construction meets the regulations according to EN50081 and EN50082 + EN61010

#### OPTIONS

122983-00	Radio synchronization RDS
122984-20	Radio synchronization DCF-77
122985-20	Radio synchronization MSF-Rugby

#### Factory installed options

119490-10	LON
119490-20	LTC (SMPTE/EBU)
119494-70	IRIG B

## AUREA<sup>II</sup>

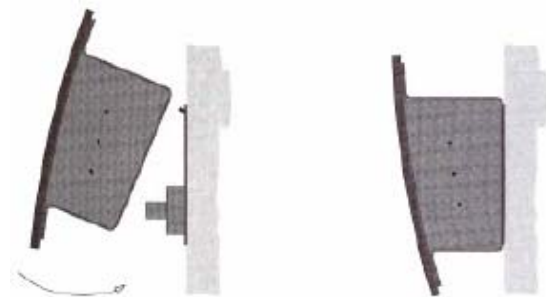

### AUREA<sup>II</sup> hrs/min

Indicates time in hours and minutes.  
Art. No. 119405-00 green digits  
Art. No. 119405-01 red digits  
W=275 mm, H=130mm.  
Distance front/wall = 60 mm.

### AUREA<sup>II</sup> hrs/min/secs

Indicates time in hours/minutes/seconds  
Art. No. 119415-00 green digits  
Art. No. 119415-01 red digits  
W=363 mm, H=130mm.  
Distance front/wall = 60 mm.

### Mounting/Installation

Very simple installation via a wall mounting plate.  
Connection via screw terminal.  
The construction ensures rational mounting and easy maintenance.
