

Contarnex Europe Limited

Marathon - Sports Timer

Function

- Time information is given by six characters in hours, minutes and seconds.
- Starting time
Can be preset (hours and minutes), which means that normal time will be displayed.
To make interval starting possible the unit can be provided with a built-in starting clock function, which can be set to intervals between 10 seconds and 5 minutes.
- Lap times
Are stored and indicated in sequences of 3 second interval.
- Control buttons
Start/stop - Reset to zero - Count up/down - Lap time - Presetting.
Control buttons and battery switches are located at the panel.

Design

- Single or double-sided. Digit height 100, 190 or 280 mm.
Light, portable (provided with handle) and weatherproof construction, which also can be fixed on top of a car (using a special mounting kit).
- The delivery includes:
1 pc. 230 V connection cable with connector and plug.
1 pc. 12 V connection cable (car battery) with battery connectors and 3-polar connector.

TECHNICAL DATAS

| Art. No. | Digit height | Length | Height | Dept | Weight |
|-----------|--------------|----------|---------|---------|--------|
| 114959-50 | 100 mm. | 750 mm. | 350 mm. | 110 mm. | 16 kg. |
| 114961-50 | 190 mm. | 1100 mm. | 460 mm. | 110 mm. | 20 kg. |
| 114964-50 | 280 mm. | 1400 mm. | 550 mm. | 110 mm. | 24 kg. |

230 V connection:..... 230 V +/-10% max. 25 VA

12 V connection (car battery):..... 10 – 18 V DC max. 4A

Accuracy:..... ± 5 secs./24 hours

Ambient temperature:..... -10°C up to +40°C

OPTIONS/ACCESSORIES

- Battery kit for running reserve
Single sided 8 hours
Double sided 4 hours
- Remote control unit with display
- Starting clock function (loud speaker and remote control unit)
- Interface for connection of
starting pistol, starting gate or photocell
PC-computer or printer
- 5 metre Interface cable
- 10 metre Interface cable
- Photocell including mounting angle
- Second slave
- Display for indication of participant numbers (3 digits)
- Car roof mounting kit
- Starting pistol
- Starting gate
