

## Contarnex Europe Limited

### **MULTI-PURPOSE SCOREBOARD SYSTEM.**

The Multi-purpose scoreboard system consists of a scoreboard, which can be combined to suit the requirements of the individual sport, or sports centre.

Excellent, clear and easy to read information by red LED's in 7-segment form.

Also available with green and yellow LED's in combination with red.

The scoreboards are developed and manufactured and approved to DIN 18032, which refers to operation performance and structural strength under the impact of balls.

Easy to install. All scoreboards are delivered with wall mounting kits. Scoreboards are connected to 230VAC. The operator's control unit is connected to the scoreboard using a shielded 4-wire low current cable.

Self-instructing control unit

Sports: Volleyball, Basketball, Handball, Hockey, Ice Hockey, Football, Water Polo, Badminton, Tennis, Table Tennis, Boxing, Wrestling.

Replaceable keyboard panels with layouts that are clear and easy to understand adapts the control unit to each individual sport.

Easy to use through pre-programmed international rules.

The display shows the same information as the scoreboard.
